Keychain Photo Viewer User's Manual

Special Reminder

Some parts of the LCD display may seem lighter or darker. This is common and not a fault of the product. Do not try to dismantle or repair this product yourself, as this will void the retailer's warranty. If the product is defective or broken, please repackage and return it to your retailer with your original receipt.

Safety and Maintenance

To ensure that your keychain photo viewer continues to function properly, please consider the following information:

1. Before using this product for the first time, carefully read the user's manual included with the keychain photo viewer
2. Be sure to use the correct cable to charge this product. Using another power source may destroy your keychain photo viewer.
3. Do not use the keychain photo viewer near water as it may be damaged.
4. Do not press extremely hard on the keychain photo viewer's buttons. It is a delicate product and could easily be damaged.
5. Handle the LCD display with care. Clean the screen with a soft, damp cloth. Press lightly and wipe in a circular motion from the center outwards.

Maintaining the LCD Display

The LCD display is a precision fitting and must be handled carefully.

1. If you need to clean the display, wipe it slowly and gently with a soft cloth.
2. Do not touch the LCD screen with your fingers, as the oils can damage the surface.
3. Do not place items on top of the keychain photo viewer, or squeeze the keychain as this may cause the LCD display to break.
